

2005 Dornfelder – Semi-Dry

A ripe, fruity German red, this rare Dornfelder is our #1 best selling wine. It has intense dark cherry color and an aroma reminiscent of forest fruits and elderberries. The taste starts out with lots of sweet berry, but before you can say fruity, the tannins come in and provide for a nice soft, dry finish. Surprise good friends with a glass served cold in the summer or winter, best cool, great at room temperature. Perfect with cheese, pasta w/red sauce and family dinners when dry and semi-dry wines should be on the table. Stainless steel tank product reduces dramatically the amount of histmanines in wine, which are the cause for many unwanted side effects, like headaches, heat rashes, etc. If you doctor recommend to enjoy more red wine, the Dornfelder grape is the one you should try. As always consult with your doctor first, but check this semi-dry red wine out, it is so pleasant, so round, you have to try it to love it.

Acidity: 5,7 g/l

Residual sugar: 75,4 g/l
